G Force™

Science Geared For Deer

G Force™ is a scientifically formulated, all-natural supplement that delivers critical highly bio-available nutrients essential to drive bone development, accelerate antler growth, build skeletal strength and increase growth rates. G Force contains a proprietary blend of amino acids, vitamins, minerals, targeted enzymes, micro-encapsulated beneficial bacteria and other novel nutrient rich ingredients to aid in delivering superior skeletal development and maximizing antler growth.

GUARANTEED ANALYSIS

Total Microbial Count	4.5x10 ⁹ cfu(colony forming units)/lb
Alpha-Amylase (A.O.)	85,050 mcg starch hydrolyzed/min/lb
Protease (A.O.)	11,340 mcg amino acids hydrolyzed/min/lb
Cellulase (A.N.)	4,536 mcg breakdown cellulose/min/lb
Lipase (A.O.)	3,402 mcg triglycerides hydrolyzed/min/lb
Pectinase (A.N.)	2,268 mcg breakdown pectin/min/lb
Phosphorus, Min	2.5%
Calcium, Min	4%
Calcium, Max	5%
Vitamin A	4,500 IU/lb
Vitamin D	5,500 IU/lb
Vitamin E	15 IU/lb

CONTAINS:

Antler  Buck  Sweet

INGREDIENTS Soybean Meal, Dehydrated Alfalfa Meal, Dried Kelp, Yucca Schidigera Extract, Calcium Carbonate, Calcium Phosphate, Dicalcium Phosphate, Silica Dioxide; Dried fermentation products of: *Aspergillus niger* (A.N.), *Aspergillus oryzae* (A.O.), and *Trichoderma longibrachiatum*; Dried fermentation products of: *Lactobacillus acidophilus*, *Bifidobacterium longum*, *Bifidobacterium themophilum*, *Enterococcus faecium*; Vitamin C Supplement, Vitamin D3 Supplement, Vitamin K Supplement, L-Threonine, L-Proline, L-Arginine, Dextrose, Magnesium Oxide, Natural and Artificial Flavors and Sweeteners, and Corn Oil.

FEEDING INSTRUCTIONS Top dress or mix in feed at a rate of 20 grams (1 scoop) per head per day. Scoop enclosed. When level full, scoop delivers approximately 20 grams of G Force Pelleted.
