

Fawn & Deer Revival™

Critical Care for Cervids

Fawn & Deer Revival is a specifically formulated combination of proven technologies, including ImmWave®, Encrypt®, targeted egg proteins, micro-encapsulated bacteria, Vitamin B complex and Vitamin D3. This all-natural paste targets harmful pathogens in the gut and delivers components directly into the bloodstream, enhancing the response of the immune system to jump-start recovery.

Guaranteed Analysis: Total Microbial Count 3.35×10^7 cfu/gm

Lactobacillus acidophilus, Bifidobacterium longum, Bifidobacterium thermophilum, Enterococcus faecium, and Bacillus subtilis
