Enteric Health Formula™

Science Geared For Deer

This scientifically formulated supplement provides a combination of Encrypt® , targeted egg proteins, select digestive enzymes, micro-encapsulated lactic acid producing bacteria, and prebiotics to aid in supporting enteric health during times of stress and illness. Designed to minimize the effects of harmful pathogens, bolster the immune system and help re-establish healthy flora when overall health is compromised.

GUARANTEED ANALYSIS

Total Microbial Count	1.64x10 ¹⁰ cfu(colony forming units)/oz
Alpha-Amylase (A.O.)	7,490 mcg starch hydrolyzed/min/oz
Protease (A.O.)	999 mcg amino acids hydrolyzed/min/oz
Cellulase (A.N.)	399 breakdown cellulose/min/oz
Lipase (A.O.)	300 mcg triglycerides hydrolyzed/min/oz
Pectinase (A.N.)	200 mcg breakdown pectin/min/oz

INGREDIENTS Yeast Culture, Powdered Cellulose, Acetic Acid, Dried Whole Egg Solids, Fructo-Oligosaccharides (FOS), Saccharomyces Cerevisiae, Yucca Schidigera Extract, Dried fermentation products of: *Lactobacillus acidophilus*, *Bifidobacterium longum*, *Bifidobacterium thermophilum*, *Enterococcus faecium*; Dried *Aspergillus niger* (A.N.) Fermentation Extract, Dried *Aspergillus oryzae* (A.O.) Fermentation Extract, Natural and Artificial Flavors and Sweeteners.

FEEDING INSTRUCTIONS Top dress or mix in feed at a rate of ½ oz (1 scoop) per day for adult deer and ¼ oz per day for young deer. Use one week prior to any anticipated stress (e.g. tranquilization, transporting, handling, worming, feed transition, etc.) and 1-2 weeks following the event. When unanticipated stressors occur (e.g. illness, adverse weather conditions, etc.), administer as soon as possible for a period of 1-2 weeks or until conditions improve. Scoop enclosed. When level full, scoop delivers approximately ½ oz of Enteric Health Formula Powder.
